

No.	Article	Authors	Pages
1	Improvement Water Productivity of Eggplant Under Subsurface Water Retention Technology	Ahmed Hatif Salim Sabah Anwer Almasraf	1-5
2	Removal of Reactive Green 12 Dye and COD from Simulated Wastewater Using Different Coagulants	Tamara Kawther Hussein Nidaa Adil Jasim	6-11
3	Adsorption Desulfurization Of Iraqi Heavy Naphtha Using Zeolite 13x	Muwafaq Mohammed Yahya Hussein Qasim Hussein	12-18
4	Field Evaluating of Wetting Pattern from Surface Drip Irrigation System for Sand and Sandy Loam Soils	Ahmad Dnan Abbass Hayder A.K. AL-Thamiry	19-27
5	Preparation of amino-functionalized mesoporous silica (MCM-41) for Nitrate anion adsorption from aqueous solution	Anaam A. Sabri Noor S. Abbood	28-38
6	Removal of Chromium from Aqueous Solution using Multilayer-Mixed (Reduction/Sorption) Bed from Iron Scrap and Nutshells	Noor Saadi Mahdi Hayder Mohammed Abdul Hameed	39-44
7	Design Experiments for Biosorption of Lead Ions from Wastewater by Box-Wilson's Method	Jaafar Zaki Yahya Hussain Majeed Flayeh	45-53
8	Phytoremediation of organic pollutants in wastewater using native plants	Omayma N. Mohammed Mohanad J. M-Ridha	54-65
9	The Reservoir Applications of Formation Test Tool (Thayyem Rutbah Field - Syria)	Mayada Razouk	66-72
10	Linear Goal Programming Method for Optimal Decision Making of Multi-Criteria Assignment Problems	Watheq Hayawi Laith	73-79
11	Structural Systems in local trading centers in Iraq	Osamah Abdulmunem Al-Temeemi Anees Mohsin Mohammed	80-92
12	The Comparison of Dry And Wet Capture (Washing With Drinking Water) to The Soot Particles Emissions From The Diesel Engine	Mai Hanna Shahda Mahmod Al Fattamah Youssef Johar	93-97
13	The impact of ecological footprint on the sustainability of urban design of the city	Zeyad Ali Ismael Saba Jabbar Nema Jathwa Abd-Al Kareem Ibrahim	98-108
14	Al-Shanshul eventuality in the architecture of the first decade of the 21st century	Zainab Huseen Ra'ouf Rana Mazin Mahdi Enas Salim Abdulahhad	109-116
15	The Role of Automation in Achieving Integration and Flexibility in Multi-Use Auditoriums	Shahad Waqid Salih Bahjat Rashad Shaheen	117-130
16	Using Attapulgit as a Lightweight Aggregate to Produce Structural and Insulating Concrete	Hind Hussein Hammad Zeyad Montaz Mohamed Tmara Rasheed	131-139
17	Effect of pH Change and water Temperature On Nickel Removal from Surface Water by Chemical Precipitation	Diala Wajeh Shehab	140-144
18	Parametric Design process in Architecture	Saifallah Adel Wafiq Ghada Musa Rzouki Alslik	145-154
19	Study the effect of MgO fineness on Cement slurry and set cement properties	Yousif Faraj	155-161
